Re: International Patent Application No. PCT/IL2004/00330  
COMPOSITION FOR IMPROVING COGNITION AND MEMORY  
Our Ref: NEUR 202/12.2.

Dear Sir/Madam,

Following receipt of the International Search Report and Written Opinion dated September 1, 2005, we are amending the claims under Article 19, PCT.

Accordingly, we enclose two sets of replacement pages 16-19, one set showing the changes made by the current amendments, and one set "clean". In the pages showing changes, additions are shown by underlining and deletions by square brackets.

The amendments are explained as follows. Claims 6 and 11 have been amended to avoid any possible ambiguity, as to the class of patients to whom the medicament(s) is(are) intended to be administered. At the same time, the opportunity has been taken to make minor amendments in some claims. The current amendments to the claims add no new subject-matter.

Applicants strongly disagree with the remarks expressed in the Written Opinion as to inventive step, but their arguments will be reserved to a later stage, as necessary.

Acknowledgment of this communication by return fax would be greatly appreciated.

Yours sincerely,

Stanley J. Davis.
